

DIRECTIONS TO QUAGGAFONTEIN

From Ceres, head up the R355 as you normally would going to Tankwa Tented Camp/Old AB event site.

The first turnoff to the right after Padstal is the road to the Tankwa Karoo National Park (leading to the R354). Take it.

Drive 33kms-ish to the Quaggafontein farm gate which is a bit further once you have crossed both dips of the Ongeluks River. The gate has blue wooden stars all over it.

The coordinates of the actual farm gate: -32.482642 19.897617

Once you have entered the farm gate, stay on the entrance road until you reach the house which is nestled against the mountains.

Note: 2.8kms exactly from the gate there is a big hole just next to the road... Be careful not to drive into it, especially in the dark.

Stop for a moment on Quaggakop (the hill with the trig beacon) and take in the view - it's lovely.

NB: Do not follow the Google Maps route to the coordinates of the farm house (at least until you are on the farm). It will lead you onto inaccessible, fenced off roads. The coordinates of the gate are OK to use in Google Maps.
